**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-34 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or suggest a method of polarization birefringence compensating in a photonic device comprising all the specific elements with the specific combination including a compensator region having a different birefringence from a remaining portion of the slab waveguide outside the compensator region, and a capping layer having a higher refractive index than the core on the compensator region as set forth in claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ellen Kim whose telephone number is (703) 308-4946. The examiner can normally be reached on Monday and Thursday.
